

Sale Name: August Equipment and equipment Accessories Auction

LOT 77 - New Assembled IRGC40 Electric Mini Golf Cart- Red

Lot Location 1700 Rainbow Dr

Description

Performance and Power

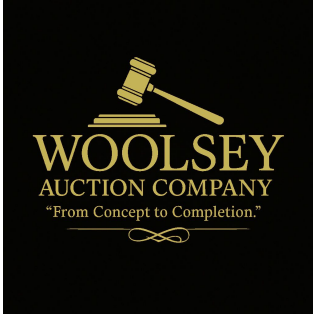

- **Electric Motor:** 60V electric system for power.
- **Drive Type:** Rear-Wheel Drive (RWD) with forward and reverse gears.
- **Speed:** Maximum speed of 15.5 MPH. Some online sources may state a top speed of 22 mph, but official specifications list 15.5 mph.
- **Range:** While specific range is not listed, the 60V battery and efficient electric motor suggest a decent range for its intended uses. Average 48-volt golf carts can travel 25-40 miles on a charge, and 60V generally results in a longer range and faster charging than 36V carts.
- **Charging:** Includes an onboard charger for convenient charging anywhere. Charging time can vary from 3-7 hours on average, but could be longer depending on the battery's condition and the charger.

Construction and Design

- **Dimensions:** External dimensions: 1800 x 800 x 1500mm.
- **Weight:** Preparation Mass (empty weight) of 116 kg (approximately 255 lbs).
- **Load Capacity:** Maximum load capacity of 150 kg (330 lbs).
- **Seating:** Designed for 1-2 passengers plus the driver. Some models may feature a foldable second-row seat.
- **Tires:** Front and rear tire size: 3.00-8, designed for stability and being turf-friendly.

- **Steering:** Handlebar steering.
- **Body:** Features a compact tricycle design. Some models include an awning and carport enclosure.

Quantity: 1
